Dear friends,

We were bound together by destiny 25 years ago - on the 10th of January 1983 as the 26th MBBS batch of Calicut Medical College. We came in with happiness and joy, knowing no one, our minds full of uncertainties.

The path was long, but we walked with a song. There were fears and tears, but we also had reason for cheers.

Those years have gone now and we have (hopefully) made our mark in this world.

We parted with tears, knowing everybody around. Time can never erase our memories of those good days. Time or distance cannot separate hearts, which really cares. Though we may not be seeing each other very often, deep in our hearts we know we are bound together forever by nostalgia for the time we spend together in our campus.

Dear batch mate, now it is time to come back once again, to our old campus, and cherish memories, and share our present with each other. And enjoy the same warmth of being together

We welcome you to Calicut to attend our Silver Jubilee Reunion.
